

Mother & Child Health Coalition's Quarterly Meeting

Youth & Mental Health: Living in an Anxious World

This activity is jointly provided by MCHC and Children's Mercy Kansas City.
(with the Metro KC Youth Collaborative and Pregnancy, Infant and Child Health Committee)

Today, 1 in 5 children and adolescents have a mental health problem. Anxiety disorders are the most common mental health problem among children between the ages of 9 and 17. This details a reality that can create powerful barriers to success for the youth we serve. Join us for informative presentations, stories of resilience and a call to action on addressing adolescent mental health.

Register online: <https://www.surveymonkey.com/r/MCHC72718>

Learning Objectives:

- Describe mental health issues facing adolescents in our region
- Identify strategies and/or resources that can be utilized in work with adolescents with mental health issues
- Participate in a call-to-action session for addressing mental health issues in youth and developing a community directive

Friday, July 27, 2018

8:00 - 11:30 a.m.

Kansas City Health Department
2400 Troost Ave., Biery Auditorium
Kansas City MO 64108
